

**REMARKS**

The Applicants acknowledge the receipt of the Notice of Allowance mailed October 23, 2007. The Applicants thank the Examiner for favorable consideration of the present Application. In light of the recent decision in *McKesson Info. Solutions, Inc. v. Bridge Medical Inc.*, the Applicants have been reviewing case histories to ensure that references cited in cases having some similarities are brought to the attention of the Examiner. In the present case, co-pending Patent Application Number 10/600,011 (the '011 case) was brought to the attention of the Examiner in an IDS filed on October 25, 2004. Applicants have found references reported in the '011 case that have not been submitted by way of an IDS in this case, as it was believed that notifying the USPTO of the serial number of the application was sufficient without having to also track the case and notify the Examiner of the actual documents cited therein.

While the documents submitted in the accompanying IDS have not been thoroughly reviewed, providing these documents is not an acknowledgment that they are material to patentability. Rather, in an abundance of caution in view of the *McKesson* decision, the Applicants have opted to pull the case from allowance to submit these documents for consideration by the Examiner.

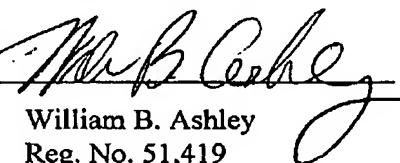

Authorization is given to charge Deposit Account No. 50-3581 (NOKM.079PA) any necessary fees for this filing. If the Examiner believes it necessary or helpful, the undersigned attorney of record invites the Examiner to contact the undersigned attorney to discuss any issues related to this case.

Respectfully submitted,
